AVRIL M. WALTERS

avrilwalters001@gmail.com | linkedin.com/in/avril-walters | Portfolio: https://avril12345.github.io | London, UK

I am a Senior Operations Associate with experience building processes and automating systems. Every day, I am building things with AI tooling, and I'm excited about where we can go with environmental technology.

EDUCATION

Yale University New Haven, CT | 08/2021 – 12/2025
B.S. in Environmental Studies; Certificate in Energy Studies
Coursework: GIS, Ocean Conservation Policy, World Energy, Science of Climate Change, UN SDGs, Sustainability Implementation in Institutions

Publication: Kesling, J. R., Walters, A., & Simonds, K. (2026). Examining the role outdoor recreation systems play in changing small temperate aquatic ecosystem soundscapes. The Anthropocene Review, 13(1), 162–178.

PROFESSIONAL EXPERIENCE

Generator Health (Forus AI) | *Operations Specialist,* Remote, 03/2026 – Present
- Diagnose and resolve errors in agentic AI-led prior authorisation requests, augmenting accuracy and compliance across medical insurance operations; communicate bugs and resolutions with the engineering team
- Navigate and map workflows spanning 100+ distinct insurance plans, discerning their impact on our product strategy
- Design team operating procedures and lead training and mentoring to new hires

Seed Consulting Group | *Consultant*, Remote USA, 04/2026 – 06/2026
- Owned the CRM workstream for an energy-sector client, embedding 6 structured sales stages into its donor recruitment process
- Transformed client meeting cadence and structure to align with existing workflows and drive adoption of the CRM

Future Metals | *EHS Intern,* Wallingford, CT, 01/2026 – 03/2026
- Led the rollout and coordination of EHS training across six U.S. manufacturing sites, strengthening compliance
- Generated risk assessments and hazard identifications; led incident and near-miss investigations using structured root-cause analysis (A3 methodology) to create actionable recommendations for safety compliance

East Shore District Health Department | *Water Quality Intern,* Branford, CT, 05/2025 – 08/2025
- Formulated hypotheses for river contamination, conducted quantitative analysis on datasets in ArcGIS, diagnosing a 40% reduction in bacterial contamination over 4 years, translated the technical findings into mitigation strategies and presented them to non-technical stakeholder audiences such as the district board of directors

Yale University Athletics Department | *Operations Assistant,* New Haven, CT, 09/2021 – 12/2025
- Directed equipment logistics, ticketing operations, and cross-functional teams of student workers, administrators, and officials for the Ivy League Volleyball Tournament and sold-out Ivy League Basketball games

Additional Experience: Assistant Lab Manager, Yale Biological Anthropology Dept. (2024–25), documented inspections and inventory audits to maintain regulatory compliance. | Business Strategy Intern, Tick42 (2022), collaborated with a cross-functional team to translate operational requirements into a prototype client dashboard.

AI BUILD PROJECTS | All visible in my portfolio

Inbound Triage & Pre-Call Brief for Spruce | *Claude Code, Claude API, Python, Streamlit*
- Built and shipped a working tool for Spruce's demo funnel: one demo request becomes a fit score, a routing decision, a sourced brief, a talk track and draft emails in under 20 seconds
- Designed the AI to read each company's website, cite every fact to its source, separate stated pains from inferred ones, and match the closest customer case study
- Added guardrails that block made-up claims and keep a human sending every email
- Encoded routing rules by segment (e.g. merchants go straight to the founder, same day) and produced CRM-ready, Pipedrive-style deal fields

Land Parcel Search & Evaluation Tool | *Solar developer*
- Built a tool to find and score land parcels for solar site development, used GIS layering for topography and road access, and internet scrapers to find local bylaws on solar and battery installation.

Client CRM | *Personal branding agency*
- Designed and built a demo CRM for a brand new agency, including a meeting calendar and agenda tracker, a sales pipeline and an automated 'chief of staff' to maximise time for the founder (a full-time professional athlete)

Reunion Dashboard | *Yale Women's Rugby, 50-year reunion*
- Built an internal dashboard to run the reunion committee, tracking meeting notes, task delegation, budget, marketing materials, outreach and an alumni database.

LEADERSHIP EXPERIENCE

Yale Oceanography Student Association | *Founder & President,* New Haven, CT, 09/2024 – 12/2025

- Founded and scaled a new student organisation to 40+ members, securing official university status and $1,000 in funding
- Directed inaugural programming across 6 events, including a Shark Necropsy Workshop and guided Peabody Museum tours

Athlete Ally | *Chapter President,* New Haven, CT, 09/2022 – 09/2024

- Led a 6-officer board through weekly strategy meetings, driving event planning and progress toward national affiliation
- Scaled the inaugural affinity group gala to 150 attendees, collaborated with diverse teams, and increased funding by 85%

Yale Varsity Crew & Club Rugby | *Athlete / Captain,* New Haven, CT, 09/2021 – 12/2025

- Competed for 3 years on Yale's 38-person varsity rowing team (30 hrs/week training); won the 2022 Ivy League Championship
- Rowed for Great Britain u18 team at la Coupe de la Jeunesse (European Championships)
- Captained Yale Rugby: organised 16 additional training sessions and led the team to qualify for the National 7s Championship

Additional Leadership: Volunteer Coordinator, Our Youth 4 Climate, drove engagement and accountability across a 75-person organisation. Copy Editor, The Environmental Digest, edited “In Other Words,” the publication's second edition.

SKILLS, INTERESTS, & PUBLICATIONS

Skills: R, ArcGIS, Canva, CRM tools (Monday, Asana), French (Intermediate)

Qualifications: CSRD fundamentals, Scope 2 Emissions Accounting

Interests: Sports biomechanics and physiology developed through personal experience as a junior national team rower and club coach
